He becomes entangled in human trafficking and becomes a victim of men with guns. But is it the real victim? Review: Loud action, numbers for legs and drama that takes place with twists and turns on every corner. Sultan - The Savior takes his mind from the daily difficulties of life. And when your mind flies, don't try to reason with what's going on. Touted as a remake of the southern film Vedalam, Sultan will catch you with a string of non-stop entertaining sequences that will surprise you with its improbability and entertain you with its execution. And that's where the movie scores. It's crazy how it challenges your rationality to be in the back seat! It's commercial, it's thoughtless, but you can't just ignore that it's almost three hours of good fun. The scenario definitely goes a long way in that it's possible. It's tense, changes track, but doesn't lose plot and keeps storytelling simple, despite over-the-top elements. The story revolves around Raja (Jeet) and his sister Disha (Priyanka), but it also includes a number of characters who never look like extras. There are many twists and turns that never look unwanted. Raja is a seemingly simple man who comes to town with art-college contender sister, Disha. The gentle breeze and mellifluous background of the melody accompanying them prove their innocence, albeit in a model manner. A series of pleasant sequences and some quick narration later, when the film finally breaks at the interval, it prepares you for a clichéd account. Oh, no, you're pleasantly surprised. There is no melodramatic history, but another slew of twists and turns that lead to climax. Even in the second half, the film keeps the pace going. There is a scene where Raja is chasing a car that carries his trapped sister to a trafficker. The script keeps the right amount of anticipation alive throughout the chase. Yes, Disha is tied up inside the boot, but she manages to get her hands on the phone. He'll call Raj and give instructions on how to pull out the wires. The scene can be very far-fetched, but the narrative is so good that you can willingly suspend your disbelief. Some scenes go overboard though, especially when Raja feels vindictive and decided to break a lot of glass. A few more good games would work better. Jeet proves why he's a typical commercial hero. His presence on screen invites hoots and clapping in abundance. Priyanka proves her acting courage, even if her is not author-backed – and it is a success. Bidya Sinha Mim is easy with her expressions in the limited screen time she gets for her silly scenes. Kanchan Mullick, whose character is getting funny, also pulls gags too far before his sudden departure. Yet his presence adds to the small twists and turns that help in Raj's transition from a simple man to a sultan with a shady past. But we could have succeeded without some unnecessarily stupid dialogue between them. As for entertainment value, just watch out for a scene in which Subhashish Mukherjee's character lies dying in a pool of blood, but has an interaction to remember with the goon-with-a-heart, Sultan! If Bollywood masala movies like Chennai Express, Wanted and Dabangg make you keep your brain safely locked at home, this movie is a close cousin of such a cinema. Be careful if you really, really want to.
